

Children, Young People and Families Strategy 2015-2018

This is Brandon Trust's 3 year plan about how we are going to support children, young people and their families to get good support and enjoy family life together.

Brandon Trust support children and young people with disabilities to live at home with their families.

Our House

We think it's important that all children and young people are around the people who love them most.

We will always ask families what support they want, and when they want it.

We can provide as little or as much support as families need.

We also support children and young people on holidays and can provide training and advice for families.

We want to help children, young people and their families meet other people, make friends and support each other.

Brandon Trust talk with families, schools, councils and health staff to plan good support together.

We will always make sure we listen to families and change the things that aren't working.

We ask families to help choose the right staff to support them.

We can carry on supporting young people when they become adults, if they want us to.

We give good information and we ask families we support about their ideas.

Brandon Trust help children, young people and families tell other people about what is important to them.

If people have a strong voice together, things can change and get better for everyone.

We think we already give people really good support .

We want to help more families over the next 3 years.

Brandon Trust supports lots of people but we will help every child, young person and family to get a good life that is right for them.
